## PowerLED-1X

**Cell2solutions** presents the **PowerLED-1X**, a high intensity directional LED light set for complementary signaling.

The **PowerLED-1X** is a compact LED light with an optical advanced design using a clear reflector and adjustable light beam focus (20° horizontally; 15° vertically). Direct or Wide angle lens are available. The **PowerLED-1X** Series use the latest **Generation 3 LED lights**, with high intensity and an optical advanced design, to provide an extraordinary luminosity for it's size.

The models are ideal for the installation as complementary signaling (warning lights) of rescue and other emergency vehicles.

### Specifications

*Dimensions:* Ø 40 mm x 55 mm.

*Input power:* 12/24 Volt with separate multi pattern 2 outlet power supply.

*Available colours:* Amber, Blue, Red.

**APPROVED TO EMC DIRECTIVE 95/54/EC.**
